LABOR ON THE WATCH

An Organization Formed to Scrutinize the Appointments.

MATERIAL FOR POLITICAL USE.

The Anti-Mahone Men in Virginia Receive Another Black Eye.

FREDERICK DOUGLASS GETS A PLACE.

His Preferment is Not Very Pleasing to the Colored Population.

A new labor organization has been formed for the purpose of watching all the appointments made in the public service. If that element does not get its share of the places there will be a protest in the future. Frederick Douglass has been appointed Minister to Hayti. Another Mahone man has been recognized in Virginia.

(SPECIAL TELEGRAM TO THE DISPATCH.) WASHINGTON, June 28 .- Information that is perfectly reliable has reached the correspondent of THE DISPATCH that a secret rganization of working people and friends of the laboring classes has been formed to watch the course of appointments, and sum up at the close of the administration of President Harrison what has been done for the class they represent. The organization will have its headquarters in Washington, but will

have its headquarters in Washington, but will have branches in every State, which will report regularly to the central body.

A careful investigation will be made of every appointee, both in the States and in Washington. In cases where friends of the labor movement are candidates and are rejected for others, all the circumstances connected with the rejection will be ascertained and had for use in the coming campaigns, the intention, of course, being to boycott every person who has used his influence against the appointment of the candidate satisfactory to the labor element. The organization is now in its inception, and is proceeding very cautiously in its acquisition of members, as it is the purpose of its projectors to accept none but earnest pose of its projectors to accept none but earnest advocates of the liberation of the wage worker and not men who have joined labor organi-zations for selfish purposes.

NOT A PARTISAN BODY.

An intimation thrown out that the new or-Democratic party was met with the assertion that it would favor no one party more than an-other, but would work wholly in the interests of the appointment of friends of labor to office, because under the Government better nay is received for shorter hours of labor than under the private or corporate employer. In this city the present membership is said to be composed of the most reputable of the labor leaders, and the branches in other localities will be so far as possible made up of similar material.

The current fiscal year comes to an end to-orrow, and it is expected that the beginning the new year on Monday, when the old looks are closed and the new appropriations

of the new year on Monday, when the old books are closed and the new appropriations made available, there will be a large number of official changes in the department. Consequently the office seekers are looking up a little, and especially those who are applicants for departmental positions. Among the appointments made to-day that of Watt, to be Marshal for the Western district of Virginia, has again set the tongues of anti-Mahone men wagging with indigmation against the President, as Watt is a Mahone man of the deepest dye.

They are getting used to the appointment of Mahone men, however, and are now beginning to temper their anger with some small amount of philosophy. The incumbency of the office of Chicago, a personal friend of the President, and a member of his old regiment, and informed him that be must make himself ready to take charge of the bureau on Monday. He will get his commission to-morrow.

WITH MIXED FEELINGS.

While the appointment of Hon. Frederick Douglass Minister of Havti will be generally Douglass Minister of Havi will be generally popular, it is very distasteful to a large portion of the colored people of the District of Columbia. This population is divided into cliques socially, and Douglass has always been classed with the kid glove element on account of his wealth and exclusiveness. He mingles socially with the very few of the colored people, and those generally are persons of means and who have held public office. The fact that he married a white wife also has caused much ill feeling against him among the colored people.

cansed much ill feeting against nim among the colored people.

Another ground of objection is his alleged parsimony, which has led to look for fat offices in which he would give positions always to persons of his own family and clique. While his ability and eloquence are admitted by all, for these reasons a large class opposed his reappointment as Becorder of Deeds, for which office he was an applicant, and the same class is much disgruntled at his elevation to a ministerial position. The popular opinion, however, is that in view of possible complications with Hayi the selection of a colored man possessing the fine address and abilities of Douglass is the best that could have been made.

PRESIDENTAL CALLERS.

A Number of Distinguished Visitors at the White House,

WASHINGTON, June 28 .- There was a slight falling off in the rush of visitors to the White House to-day, but they were sufficiently numerous to engage the President's undivided attention for three hours. Among those who saw the President were Vice President Morton, Senators Hiscock, Dolph, Higgins, ex-Senator Conger, Prof. Chamberlain, of Iowa; Representatives Farquhar, Coleman, Grosvenor, Thompson and Burton, Dr. W. F. Johnson, of Indianapolis, and Recorder Trotter. and Recorder Trotter.

Work of the Sloux Commission CHAMBERLIN, DAK., June 28.-A large delegation of Indians from Lower Brule Agency is in the city making inquiries in regard to the Sioux Commission. From them it is learned that their people at the agency are preparing that their people at the agency are preparing for the arrival of the commission, and the Indi-ans appear very anxious to learn what success the commission is meeting with at the agencies now being visited. These Indians say that the news brought them by courier from the upper agency is very encouraging for the ratification of the Sioux hill.

O'Bries Before the Parcell Commission. LONDON, June 28.—At the meeting of the Parnell Commission to-day Mr. James O'Brien, member of Parliament, refused to say whether he had been a member of the Fenian Execu-tive Council.

Physicians Acknowledge There is Less

Deafaces. NEW YORK, June 28 .- Physicians have watched with a jealous eye the increasing popularity of the sound disk invented by H. A. Wales, of Bridgeport, Conn., as patients who have been under their care for years have in a week's time had their bearing restored by its use, and they acknowledge that there may be a decrease in the percentage of deaf people in the census of 1890.

earnestly to the WARNINGS already sounded by medical men against the indiscriminate use of the ALLEGHENY WATER at this time." * * * * * "Dr. W. T. English said: 'It cannot be told how long the water

"People cannot hearken too

will be impure; it may be for months." Pittsburg Dispatch, June 4th, 1889. " The purity of APOLLINA-RIS offers the best security against

the dangers which are common to most of the ordinary drinking waters." London Medical Record. Of all Gracers, Druggists, & Min. Wat. Dealers. BEWARE OF IMITATIONS

Do You Share the Resulte?

Do You Share the Results?

Why not use other people's brains as well as your own in order to lessen life's work, and especially so when the coming hot weather will make life a burden to those who have to do laborious housework? The very word "Pearline" sounds clean and sweet enough to recommend even a poorer article. But "Pearline" does as clean and as sweet work as its name implies. Now if there be a housekeeper among the thousands of Witness readers who has hitherto lived so far beneath her pitvileges as not to have used "Pearline," surely she will at once purchase a packet and test what it will do for her. "Pearline" represents brains. That is, it is the product of long and hard processes of thought, investigation and experiment. You are invited to share the results. From New York Witness, June 12, 1889.

GREAT variety in silk and flannel hirts. JAMES H. AIREN & Co.
